CAREER SUMMARY

Enthusiastic and adaptive learner with a strong interest in acquiring new skills and applying them to solve real-world problems. Eager to contribute to the overall growth of the organization through dedication, teamwork, and continuous improvement. Passionate about innovation, problem-solving, and leveraging technology to create impactful solutions.

EDUCATION

VIT-AP University	2023 – 2027
B.Tech – Computer Science & Engineering CGPA: 9.55 / 10	
Sri Chaitanya Junior College (Board of Intermediate Education – XII)	2021 – 2023
Percentage: 98.7%	
Sunshine EM School (Board of Secondary Education – X)	2021
Percentage: 99.33%	

TECHNICAL SKILLS

Programming Languages	Java (Strong – OOP, DSA) · Python (Intermediate) · C (Intermediate)
Web Technologies	HTML · CSS · JavaScript
Frameworks & Libraries	React.js · Node.js · Express.js
Databases	MySQL · MongoDB
Tools & Platforms	Git · GitHub · VS Code · Google Colab
Soft Skills	Time Management · Teamwork · Problem Solving · Accountability

PROJECTS

MERN E-Commerce Application Live | GitHub

MongoDB · Express.js · React.js · Node.js · Mongoose · Vitest · React Testing Library

- Built a full-stack MERN e-commerce application with React frontend and Node.js/Express backend, integrated with MongoDB using Mongoose.
- Implemented core shopping features including product listing/search, cart management, checkout, order placement, and order tracking.
- Developed REST APIs, validated business logic (quantity, shipping, tax), and added frontend tests using Vitest and React Testing Library.

Diseased Plant Detection

Python · OpenCV · YOLOv10 · Roboflow · Google Colab

- Trained a YOLOv10 model using Roboflow for real-time plant disease detection.
- Preprocessed and annotated datasets to improve model robustness across plant categories.
- Integrated the trained model with a microcontroller and webcam to perform live detection, demonstrating IoT-AI integration.
- Collaborated in a team environment, strengthening adaptability, coordination, and project execution skills.

Portfolio Website Live | GitHub

React.js · CSS · Node.js · Express.js

- Developed and deployed a responsive portfolio website hosted on Netlify.
- Implemented REST API endpoints with backend validation to securely handle form submissions.
- Improved performance by optimizing navigation speed and adding smooth animations for enhanced UX.
- Applied self-learning skills to quickly integrate new tools and modern web technologies.

CERTIFICATIONS

Generative AI Professional – Oracle	[View Certificate]	2025 – 2027
MERN Stack Development – Ethnus	[View Certificate]	2025
C Programming – Adhikari Computers	[View Certificate]	2023
